CHRISTIAN MIEVES 'NATIONAL GEOGRAPHIES'

This exhibition will showcase a series of new large and medium-size paintings inspired by photographs of anonymous spaces across the Hispanic and Lusophone worlds that have appeared in National Geographic magazine in the 1960's and 1970's. The paintings explore the relationship between the human figure and its surrounding space, a subject that Christian has been developing since 2000.

Born in Germany in 1973 Christian Mieves studied in Germany and then came to Newcastle to complete a Masters in Fine Art at the University of Newcastle upon Tyne in 2005, awarded with a scholarship of the AHRC (Arts and Humanities Research Council). Based in Newcastle he works as an artist and in art education.

National Geographies Exhibition 14th July - 25th August.
